
LIFESEP™ SERIES

GO BEYOND THE INDUSTRY'S STANDARDS

BIOMAGNETIC SEPARATOR FOR 15ML TUBES

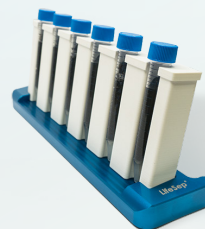

TAKE HEALTHCARE TO THE NEXT LEVEL!

MEDICAL SOLUTIONS FOR DIAGNOSTICS, LIFE SCIENCES, AND PHARMACEUTICALS

LIFESEP™ 15SX 6-CELL STATION FEATURES

- + Patented Nd-Fe-B magnet configuration for optimal results
- + 6-Cell Station design for simultaneous multiple tube separation
- + Open-faced, tilted design for clear visibility
- + Rapid separation of micro- and nanometer beads
- + Easy aspiration
- + Superior particle retention
- + Removable base for easy cleaning
- + Durable and easy to use

LIFESEP™ 15SX 6-CELL STATION

DURABLE AND EASY-TO-USE TECHNOLOGY

Introducing the **HGS** Six Cell-Magnetic Separator to the Dexter's patented **SX SERIES**. The device is durable and easy-to-use. For use in cell sorting, RNA and DNA isolation and purification of biomolecules, these separation devices offer fast and easy aspiration in part because of our innovative Neodymium-Iron-Boron (Nd-Fe-B) magnet configuration.

These units are designed to accommodate industry standard microtiter plates. Our LifeSep™ technology is simple and easy to use with the most established protocols.

Find out how Dexter can help you take technology farther,
success higher and healthcare to the next level!
